HEALTHCARE
IN GOD'S OWN
COUNTRY**

MANY NATIONS, ONE DESTINATION

Rajagiri Hospital, a 576 bed multi-specialty tertiary care referral center with international and national accreditations has created its niche on the map of quality healthcare delivery touching more than 2 million lives in a short span of its existence. Having earned the trust and loyalty of patients through the compassion of its caregivers and high-precision medical technology, the institution has emerged as the leading healthcare facility in the region. The consistent pursuit of achieving uncompromised excellence in healthcare has won Rajagiri Hospital many accolades and appreciation on national and international platforms.

Rajagiri Hospital, established in 2014 was a thoughtful initiative from the renowned Rajagiri CMI group of institutions to offer quality and affordable medical care. Their legacy in pioneering a distinctive culture in the educational sector has helped them carve an exemplary medical institution in Kerala. Driven by a strong interdisciplinary collaboration across 50 medical specialties leveraging the most advanced evidence based medicine offers the patients a holistic healing experience. Integrating telehealth technology to its service spectrum, Rajagiri Hospital has paved the way to reach out to patients beyond borders. Today, the Hospital has grown to be the first choice among the domestic and international patients for their healthcare needs.
